

Significantly reduce Attention Deficit Hyperactivity Disorder (ADHD) symptoms

AttenGo's unique training software treats the root causes of your or your child's Attention Deficit Hyperactivity Disorder. It is based on the innovative, patent pending, neuro-cognitive technology that stimulates Beta brainwave directly responsible for the enhancement of cognitive performance.

AttenGo is highly effective in reducing ADHD symptoms, such as hyperactivity, inattention and problems with academic performance.

AttenGo helps nature to take charge by enhancing frontal lobes activation and brain waves that support the areas of calm focus and alertness. Positive feedback from patients and clinicians attest to the program's **remarkable and long-lasting results**.

Your child will find that cognitive training with AttenGo is fun and provides an appealing improvement challenge. Receiving continuous feedback about progress is an excellent way to keep motivation high and keep the attention deficit hyperactivity disorder treatment on track.

15-25 minutes, 2-4 times a week for 3-5 months is all you need!
It's Online – no downloads necessary

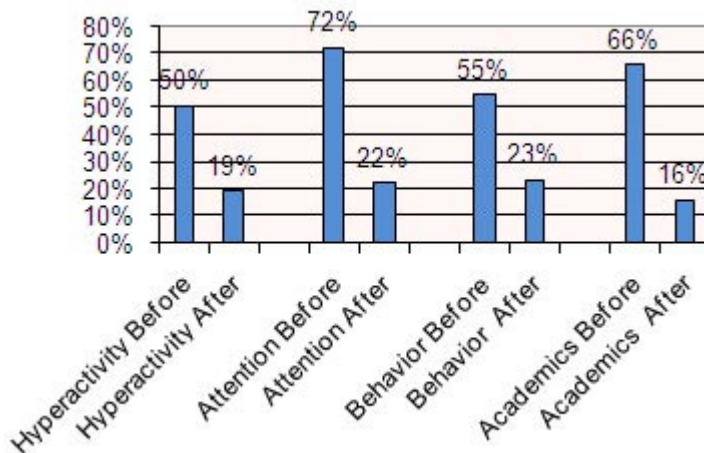

"AttenGo is easily the most effective Internet training program for minimizing symptoms associated with ADHD and learning disabilities and for significantly enhancing academic performance and learning skills".

**Dr. Jackie Eldridge,
Faculty of Education, UOIT, Canada**

Results of a clinical study
(ages: 6-17)

Total Reduction in Attention
Deficit Hyperactivity Disorder
Symptoms

AttenGo facilitates permanent improvement that enables people suffering from Attention Deficit Hyperactivity Disorder (ADHD), Attention Deficit Disorder (ADD) and Learning Disabilities (LD) to maximize their potential and reduce or eliminate the use of drugs that may often have unpleasant side effects.

AttenGo dramatically improves:

Attention, Concentration, Focus, Working Memory, Short/Long Term Memory
Organizational Skills, Ability to Ignore Distractions, Academic Performance while
reducing Impulsivity & Hyperactivity.

By adjusting the program to age and severity of symptoms, we are able to identify problematic areas and treat them directly.

AttenGo treatment program is the ultimate **natural treatment** for children and adults with Attention Deficit Hyperactivity Disorders
