

NEW! **RM math** **PLAYER**

Middle and High School Mathematics

Individual Teacher Licenses Available!

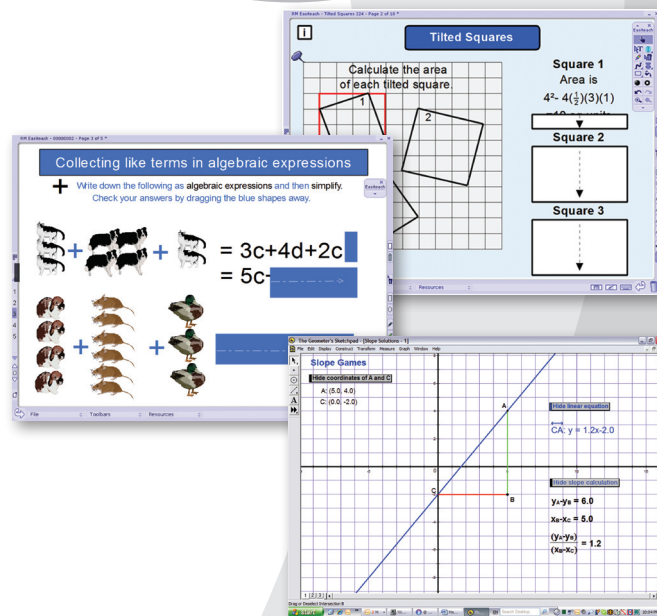

Now with the introduction of RM Math Player, individual math teachers have access to the same award-winning programs found in RM Math Framework at very affordable prices. RM Math Player provides teachers in grades 6 through 12 with interactive math content aligned to both the NCTM and state-based curriculum learning standards. Licenses are available for individual, group or site users.

The RM Math Player curriculum can be used as core or supplementary curriculum. Content is self-contained on easy to use CDs for MAC or PC users. Each topic includes over 400 ready-made interactive resources and printable assignments. Improve test scores, increase motivation and make learning math fun.

RM Math Player can greatly increase student motivation, engagement, understanding and retention of complex math concepts. The provided curriculum resources and the interactive teacher tools are very visual and help teachers to deliver lessons which are exciting, fast-paced, and speak to all student learning styles resulting in improved student performance and test scores.

Features and Benefits:

- » Award-winning content from RM Math Framework Edition.
- » For Microsoft Windows® and MAC OS X.
- » Individual, group and site licenses available.
- » Curriculum aligned to national and state standards for grades 6 through 12.
- » Compatible with any interactive technology: whiteboards, wireless slates, digital projectors, voting devices.
- » Subjects include: Calculus, Algebra I & II, Geometry, Numbers and Operations.
