

A Notebook with a Difference

NEW! K-Adult. The **RM Mobile One Classbook** has been designed for education, combining excellent value with tried and tested reliability. This is mobile computing power designed to withstand the knocks, scrapes and bumps of school life.

Drop tested to military standard

The RM Mobile One Classbook not only has reinforced ports and a rubber bumper to help protect the notebook in transit, it can also withstand a drop up to 6ft.

Spill and splash proof keyboard as standard

Accidents can happen, but don't worry; the RM Mobile One Classbook now has a spill and splash proof keyboard as standard (50 cc of fluid).

Easily removable keyboard as standard

The RM Mobile One Classbook is the first notebook to have a keyboard that is designed so any teacher can quickly replace it, should it become damaged.

- » Rubber bumper plate to protect your screen and catches in transportation
- » Magnesium alloy lid to protect your screen when closed with a magnesium alloy lid
- » Anti-trip cable prevents the power port being damaged when the power cable is caught
- » Bigger and better to share with a **15.4" LCD hard screen** as standard
- » Optional Primary keyboard has upper and lowercase keyboard for primary school students
- » 3G capable allowing you the flexibility of accessing your data anytime, anywhere
- » Supports Wake-on LAN
- » **Integrated webcam** as standard, a truly collaborative notebook
- » Fully configurable; Battery life monitor
- » Option to have the wireless always on even if the wireless on/off button is turned to off

Drop proof, drip proof and student proof; it stays in the classroom longer.
